Gateway Notes

Welcome to the IA-Corp gateway for Factory 83.
This gateway is used for all Factory 83 production lines and manage its users. Here is some information about the different roles we have on the gateway and what you can do with those roles. If you have any questions, reach out to Mike K. in tech support by emailing mkennedy@ia-corp.com. If it's an emergency, contact your manager.

Downloads

Designer Launcher

Bring all your data, systems, and developers together into one simple, integrated development environment.

→

Perspective Workstation

Open sessions from any Ignition Gateway.

→

Vision Client Launcher

Open Vision clients from any Ignition Gateway.

📘 Gateway Deployment Modes

Deployment modes allow for different runtime configurations to be configured on the Gateway.

Only a single deployment mode may be enabled and active at any given time. [Learn more](#) about Deployment Modes.
